

Placement Cell

A placement cell in an educational institution is dedicated to assisting students in securing employment after graduation. Here are the key objectives and functions.

Objectives

- Employment facilitation: Help students find suitable employment opportunities.
- Skill development: Enhance students employ ability skills through training and workshops.
- Industry linkages: Build strong relationships with industry partners and recruiters.
- Career guidance: Provide career counseling and guidance to students.
- Internship opportunities: Assist students in securing internships to gain practical experience.

Functions

- Campus recruitment driven: Organize on campus recruitment events where companies can come and recruit students.
- Workshop and seminars: Conduct training sessions workshop, and seminars on resume writing, interview skills and other soft skills.
- Industry collaboration: Establish partnerships with companies for placements and internships.
- Database management: Maintain a database of students and companies to match students' profiles with job opening.

- Internship assistance: Help students find and secure internships during their course of study.
- Career counseling: Offer guidance on career choices, higher education opportunities, and preparation for competitive exams.
- Feedback collections: Gather feedback from employees to understand industry requirements and improve student's preparation.
- Alumni network: Leverage alumni connections for mentorship and placement opportunities
